SUMMARY

I operate as an independent developer under my brand, eXYllent Codes, where I deliver functional web solutions using React.js, Node.js, and Python. I possess a foundational understanding of smart contracts, auditing, and crypto economics—a massive asset for fintech startups. Additionally, I provide Tier 1 IT Support, capable of troubleshooting hardware, configuring Cisco networking environments, and solving software issues to keep your operations running without downtime

PROFESSIONAL EXPERIENCE

Data Encoder | Contractual   Aug 2025 – Feb 2026

SVI Information Services Corporation, Balanga, Bataan 2100

- Managed the accurate encoding of large volumes of sensitive data into proprietary databases, strictly adhering to data privacy standards.
- Achieved and maintained a consistent daily output of 120 records per day while meeting tight deadlines.
- Sustained a documented accuracy rate of 99.50%, ensuring high-level data integrity and minimizing error correction time.

Freelance Full-Stack Web Developer   May 2023 – Present

eXYllent Codes, Bataan 2105

- Operate as an independent developer delivering functional web solutions for private clients using React.js, Node.js, and Python.
- Design and deploy responsive web applications, including e-commerce platforms and organizational management systems like "AguaOne" and "LITSattend".
- Apply specialized knowledge as a Certified Blockchain & Cryptocurrency Specialist to advise on and develop tech solutions involving decentralized concepts.
- Manage the full project lifecycle from UI/UX design in Figma to deployment and maintenance

Freelance Tier 1 IT Support   May 2023 – Present

eXYllent Codes, Bataan 2105

- Provide hands-on technical support for businesses and individuals, troubleshooting hardware, software, and peripheral issues (printers, scanners).
- Build, maintain, and repair desktop computers, ensuring optimal hardware performance and longevity.
- Handle basic networking tasks, including wiring and configuration, utilizing knowledge of Cisco Technologies and Active Directory.
- Certified in Computer Systems Servicing (NC II), offering professional-grade diagnosis and resolution for technical problems.
- Assist clients with software installation, virtualization (Oracle VirtualBox), and system updates.

EDUCATION

Bachelor of Science in Information Technology

Colegio de San Juan de Letran - Bataan, Abucay, Bataan

Technical Vocational Livelihood Track in Information and Communication Technology   May 2023

Colegio de San Juan de Letran - Bataan, Abucay, Bataan

SKILLS

Front-End: React.js, HTML5, CSS3, JavaScript (ES6+), Back-End: Node.js, Python, CMS: WordPress, Development Tools: Oracle VirtualBox, Design Software: Figma (UI/UX Design), Canva, Methodologies: Wireframing, Prototyping, Mobile-First Design

PROJECTS

eXYllent Flow (https://exyllentclearance.figma.site/)

eXYllent Flow is a specialized system integration platform designed to modernize the traditional student clearance process in State Universities and Colleges (SUCs). It replaces the tedious, paper-based "signing of clearance" with a fully digital workflow, allowing students to request clearance remotely and enabling administrative departments to approve requests in real-time.

LITSattend (litsattend.netlify.app)

LITSattend is a digital solution designed to streamline event management and attendance tracking for student organizations. It replaces manual, paper-based sign-ins with an efficient, digital-first approach, ensuring accurate data collection for organizational reports and student engagement metrics.

AguaOne Water Refilling Station (aguaonewrs.netlify.app)

A comprehensive "Dual-Portal" web application developed for a local water refilling business. This system digitizes the entire ordering process, closing the loop between customers and business owners to increase operational efficiency.

Official Portfolio (xyrell.netlify.app)

A high-performance personal website designed to establish my brand as a Full Stack Developer and Creative Specialist. Unlike standard template portfolios, this site was custom-built to demonstrate my ability to deploy responsive, fast, and visually engaging React applications.

CERTIFICATIONS

Civil Service Eligible - Professional Level, Civil Service Commission (Oct 2025)

Certified Blockchain and Cryptocurrency Specialist, DICT (Dec 2025)

Computer Systems Servicing NC II, TESDA ()
